## INSTRUCTIONS TO AUTHORS

### General

1. Languages of publication: English, French, German.
2. Contributors need not send more than one copy of their manuscript, which will not be returned.
3. Contributions should be type-written, double-spaced throughout, with a wide margin. Only one side of the paper should be used.
4. On first page state: full title, name, affiliation, and abbreviated title.
5. Abstract, table(s), list of references, and footnotes should be provided on separate pages.

### References

1. References in the main text and the text of the footnotes should be given as follows:  
As Sapir has already noted (1921: 39): 'All grammars leak'.  
... the well-known maxim 'All grammars leak' (Sapir 1921: 39).  
Some authors (e.g. Kuipers 1982, Kinkade 1983)...
2. The reference list should be arranged alphabetically, with each author's publications arranged chronologically. Names, titles etc. should be arranged as follows (without any underlining, i.e. italics!):  
*for monographs*: Bloomfield, L., 1933. Language. New York: Holt.  
*for articles in journals*: Halliday, M. A. K., 1961. Categories of the theory of grammar. Word 17, 241–292.  
*for papers in contributed volumes*: Kiparsky, P., 1968. Linguistic universals and linguistic change. In: E. Bach, R. T. Harms (eds.), Universals in linguistic theory, 171–202. New York: Holt.

If several papers by the same author in the same year are cited, small a, b, etc. should be added after the year of publication, both in the main text and in the reference list.

The number of **footnotes** should be kept to a minimum and not be used for listing references. **Drawings, trees and other illustrations** must be reproducible originals on separate sheets, drawn in India ink in large size and carefully lettered (either by strip letters or using a typewriter with a new plastic carbon ribbon). The place of illustrations should be indicated in the main text. *For illustrations to be redrawn by the publisher authors will be charged.* **Tables** (each on a separate sheet), like figures, have an arabic number and a title. No vertical lines are to be used. Their place should be indicated in the main text.

### Further conventions

1. Cited forms of the language discussed should be underlined (italics) in the main text, *but not* in the example sentences.
2. Phonetic representations ('narrow transcriptions') between square brackets: [....].
3. Phonemic representations ('broad transcriptions') between slant lines: /..../.
4. Glosses are added directly after the cited form, between single quotes: '....'.
5. Reconstructed, hypothetical or non-occurring forms are preceded by an asterisk: \*....

**Reprints.** Contributors are entitled to 50 reprints free of charge. Additional reprints may be ordered. Please indicate the number of reprints required when returning the proofs.

**Correction.** Authors are requested to check their manuscripts most carefully as corrections in the proof stage are expensive. Corrections in the proofs by which the original text is altered will be charged. Authors will receive one proof, which should be returned, within one week, to the publisher: Elsevier Science Publishers B.V. (North-Holland), P.O. Box 103, 1000 AC Amsterdam, The Netherlands.
